

Introducing the  
Wellbore Integrity Solutions

## **EL COCA FACILITY**

Global Leadership.  
Local Expertise.

**Highly trained welders  
and machinists.**

**Stringent testing methods.**

Through our quality management systems, we deliver consistent performance while complying with industry regulations.

## Committed to Being the Best

Being a global leader in wellbore integrity products and services, we are proud to bring our **renowned products**, reputation for **customer-focused** service, and in-house know-how to the core of the oil and gas activity in Ecuador from the **El Coca facility**. As an independent company with a singular focus on wellbore integrity throughout the life of the well, we are committed to delivering superior solutions to the region with the best people, processes and facilities to our customers.

### Comprehensive Services

At our El Coca facility, we bring the best of both worlds together: **global leadership and local expertise**. Our location gives customers fast and reliable access to quality manufacturing and repairing services, rental tool services, whipstocks, a world-class machine shop and more. As a result, you have easy access to leading products, services and manufacturing expertise to support your quick turnaround needs for every run.

### Trusted Brands

Wellbore Integrity Solutions offers our customers some of the most well-known and reliable brands in Ecuador's wellbore integrity products and services for over 20 years. Our roster includes our **Red Baron** brand offering fishing and remedial tools and services and our **DRILCO** brand, a name that has been synonymous with excellence and innovation in tubular products and services since 1960. We also offer machine shop services along with providing the proven performance of the **TrackMaster™** brand, a name known as the industry standard for wellbore departure applications.

### Products & Services You Can Count On

We are proud of both **our legacy and our future**. By providing the products, services, and reliability customers need to achieve **success** across the well lifecycle. We are the basin area's premier resource. As your **trusted partner**, we are committed to helping you reduce cost and risk by optimizing performance.

# El Coca, Ecuador Amazon Basin Products and Services
